COST OF WAGING WAR

EXPENDITURES OF GOVERNMENT REACHES $24,000,000 DAILY.

NEW DEBT OF 11 BILLIONS

New Feature in Bill Patterned After an English System for "War Savings" Certificates.

(By W. C. Van Cleve)

Government bonds are no longer to be a curiosity to the average citizen nor a thing of rarity. Although the recent issue of "Liberty"Loan" bonds amounting to two billion dollars are not yet ready for delivery, another bill has been reported from the Committee on Ways and Means, at the request of the Treasury Department, providing for another issue. When the act of April 27, last, providing for the raising of seven billions by bonds, treasury certificates and taxation was under consideration, it was pointed out that it was the greatest financial undertaking in the history of the world. No other government anywhere, at any time, had ever undertaken anything of such stupendous nature.

Now only four months later, comes a bill that makes the other look like a piker. This bill contemplates a new indebtedness of $11,538,945,460. Of this amount $3,538,945,460 were authorized under the former act passed in April. The two billion issue of Liberty Loan bonds, not yet delivered, will be taken up and absorbed in the new issue at four per cent. The bill authorizes the Secretary of the Treasury to issue four billion dollars worth of certificates of indebtedness payable within one year.

A new feature is also embodied in the bill, patterned after an English system, providing for the issue of "war savings" certificates to the extent of two billion dollars. Under this method, anyone having five dollars or more that he wished to invest, would take it to his postoffice, where he would be given a special stamp indicating the amount of his purchase and this would be pasted in a book provided for the purpose. This stamp, or any number of stamps he might have, would be redeemable in cash at the end of five years. Instead of drawing interest at the rate of four per cent for the five-year period, he would purchase the stamp at a discount reckoned upon a four per cent basis for the five year period. No person is to be permitted to hold more than a thousand dollars worth of these stamps.

The tremendous amount of clerical work necessary to make payment of interest yearly or semi-annually is given as the reason for making the transaction cover a five year period. Anyone desiring, however, to surrender his stamps and cash in at an earlier date will be permitted to do so on a two per cent basis. It is suggested that this scheme will make available an additional fund of two billions for war purposes, provide an opportunity for small investors to "do their bit" and encourage savings accounts by such investors. Just what effect it would have on the savings departments of the various banks of the country has not been explained.

Estimates for additional appropriations and for deficiencies continue to come from the various departments at a rate that would indicate that a bridging process may be necessary later on in case an era of cool headed financial sanity does not follow in proper time. The $640,000,000 appropriated for the aeroplae squadron a few weeks ago is already declared most inadequate and the shipping board has asked for an additional $915,000,000. The original appropriation for the shipping board was $750,000,000 which it was figured would last for an indefinite time and perhaps for the period of the war. The board now asks for nearly a billion more.

These are but samples of numerous daily reminders of the cost of waging war abroad and the fact has inspired some one to make some interesting calculations. The expenditures of the government have now reached the vast sum of $24,000,000 every twenty-four hours or at a rate of a million dollars per hour, $278 per second, day and night.

An expert accountant has put it in the following form:

"When it is considered that expert calculators and mental experts say that it is impossible for a human being to count up to 1,000,000, some idea of Secretary McAdoo's estimate of $21,000,000,000 can be gained, for the estimate is just 21,000 times 1,000,000

"To begin with, no such thing as $21,000,000,000 in real money ever existed in this country, credits and certificates making up the major portion of the amount. To illustrate—there are 50 banks in Washington, and if the paying tellers in these banks started counting $10 certificates at the rate of one certificate a second, and all worked without a second's interruption for eight hours a day, it would take them four years and eight months to count the money. If the government printed $1,000,000 a day in dollar bills, it would take approximately 69 years to get out the issue.

"But it is to the Americans of this generation that the figures should appear the most startling. There are approximately 100,000,000 people in the United States, and this means an expense of $210 per head, or $1,050 per family. As the average earnings of the head of the family are less than $1,000 per year, it is plain to be seen that war is not a poor man's luxury. If the war should end this year and we started paying our debts now and paid them at the rate of $1,500,000,000 a year, our great grandchildren would just be winding up paying the principal and interest. The interest alone will amount to $840,000,000 a year.

To which it is only necessary to add that the present estimates for the present fiscal year ending next June are more than nineteen billions dollars and we are just loading our guns and getting stripped for action. When Uncle Sam gets his coat off, the dirt will begin to fly in earnest.

A report that a number of Russian soldiers were captured by Germans reached here today. Previous reports, however, are that the famous "Battalion of Death" which is composed of Russian women is fighting about 100 miles from the Riga front.

Government Has Evidence that Financial Support Was Given to Anti-American Propagandists

Special to the Democrat-Forum.

Washington, Sept. 6.—The Government is in possession of facts showing conclusively that financial support was given to the I. W. W.'s and anti-war propagandists. This was the main object of the series of nation-wide raids upon the headquarters of the various radical organizations yesterday. All bank books, ledgers, and account records were siezed today.

Experts are scrutinizing them to learn the source of the money spent. The Government is going to trace to its source the organizations which are fomenting disorders throughout the country. The result, officials say, will show the program of proposed plots throughout.

The New Wonder

What can be more of a wonder than the tiny infant. Its entire being is new and strange and glorious.

Millions of women have used the splendid penetrating preparation, "Mother's Friend", before baby is born. By its use the muscles relax naturally when baby arrives. Nervousness and the usual tendency to stretching and bearing down pains is avoided. Write to The Bradfield Regulator Co., Dept. M, 300 Lamar Bldg., Atlanta, Ga. They will send you a valuable book, "Motherhood and the Baby", free. It is not only very interesting, but it will make you helpful to others.

By no chance fail to get "Mother's Friend" from your druggist. It is indispensable to expectant mothers and is absolutely and entirely safe.

Funeral Service.

Tuesday afternoon at about 3 o'colck at the Swinford church three or four miles southeast of Bedison, Thos. S. Young, minister of the Christian church at Bedison, conducted the funeral services of Wilma Irene Walden, the only child of Mr. and Mrs. Earnest Walden. She was born Nov. 18, 1915. Died Sept. 3, 1917, aged 1 year, 9 months and 16 days. She was an exceptionally bright child. She won the admiration and love of all. God in his wisdom saw fit to take her from our midst. Although she was permitted but a very short time to stay with us, her life was a success. She has gone to heaven to be forever with Jesus, who not only lovs little children but everybody.

Now, as she cannot come back to us we can so live, by the help of our Savior, Jesus, that we can go where she has gone.

"She is not dead, the child of our affection,
But gone into that school
Where sheno longer needs our poor protection,
But Christ himself doth rule.
"In that great cloister's stillness and seclusion,
By guardian angels led,
Safe from temptation, safe from sin's pollution,
She lives, whom we call dead."

On June 12, 1916, Mrs. Snyder said: "It hasn't been necessary for me to use a kidney medicine for about two years now, so I know Doan's Kidney Pills have given me permanent benefit. I gladly endorse this medicine again, for I think highly of it."

Let's Express Our Appreciation.

We note that Taylor county has held a great patriotic day in honor of her 121 young men, who are soon to be called into training. Several other neighboring towns have held similar festivities and now the question is, why hasn't Maryville and Hopkins "Spruced Up" and done something equally fitting for the brave boys of our community? They are as splendid young fellows as can be found in any state and we have a right to be and are proud of them. Yet it seems we are found lacking when it comes to expressing our appreciation — Hopkins Journal.

Your Grocer will deliver
Bevo A BEVERAGE

You've enjoyed it at restaurants and other places—now you want your family and your guests to join you in the same pleasure. That's one of the joys of serving Bevo—to hear your guests say how good it is—then to listen to their arguments as to just what it is. If they haven't seen the bottle they'll all agree that it is something else — if they have seen the bottle each will have a different explanation for its goodness.

Bevo is nutritive—pure through pasteurization and sterilization—non-intoxicating, wholesome and thoroughly refreshing. *Note*—Bevo should be served cold.

Bevo—the all-year-'round soft drink

Get Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, steamships, and other places where refreshing beverages are sold. Guard against substitutes—have the bottle opened in front of you.

Bevo is sold in bottles only—and is bottled exclusively by
